

Newsletter March 2018

# Things

## Wow!! ... What a Month!

March is always a very important month for EuropaColon as it is European Colorectal Cancer Awareness Month (ECCAM) and this year was particularly special. 2018 was the 10<sup>th</sup> anniversary of ECCAM and the galvanising theme was **#Time4Change**.

Why **#Time4Change**? Well, in the words of Dr Alfred Sant, MEP, [at the launch event](#) “not enough progress is being made towards implementing a system of colorectal cancer screening across the European Union.” We believe this is unfair and unacceptable. Colorectal cancer is often preventable and treatable if caught early.

**Everyone deserves the best possible chance to fight it. It is**

## #Time4Change.

Throughout March our members have been working with politicians, clinicians, patient groups and others to spread this important message. Just a few of the highlights are included below. We will share more next month!

**Click the link to read the 5 Things you need to know about ECCAM 2018...**

### 5 Things you need to know March

The fantastic support from our groups, employees and supporting companies has sent the message across Europe - its **#Time4Change!**
